

1. Designação	LUVA ALUMINIZADA 100% PARA-ARAMIDA	Ref ^a : 6901290
2. Risco / Utilização	VER CERTIFICADO/FICHA de SEGURANÇA	
3. Desenho Técnico/imagem: 3.1 Físicas / Pormenor	MODELO: 901290	

DESCRIPTION AND COMPOSITION

Palm: Made of Aramid 600gr/m2.
Back: Aluminised Aramid (370 gr/m2).
Interior: Cotton and pure wool fabric.
Pieces are united with Kevlar thread.

TECHNICAL DATA

Thermal risks (EN-407)	Performance level
Indicated performance level	4
Contact heat	3
Convective heat	4
Radiant heat	4
Small splashes of molten metal	X
Big splashes of molten metal	4

Mechanical risks (EN-388)	Performance level
Abrasion resistance	2
Blade cut	X
Tearing	4
Perforation	X

APPLICATIONS

Sectors: Foundries, metal industry, pyrotechnics, furnace repair, cement factories, steelworks, etc.

ELABORADO:

APROVADO:

**MAINTENANCE /STORAGE/ CARE**

Protect from light and dust. Non-washable; clean with a damp sponge only.
Do not dry clean.

INSTRUCTIONS/ USE / USAGE METHOD

They withstand temperatures of 500°C maximum; recommended for handling parts that do not exceed 425°C.

To ensure adequate performance features of the clothing, it must fit properly.
